1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1 and 5 are allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically a method of correcting loss and dispersion in cable measurements comprising collecting a series of fractional sinusoid components of the reflected response from predetermined points along the cable to provide a superposed function, dividing the function to provide a normalized function, and extracting from the normalized function the fractional sinusoid components by calculating a real value at each of the predetermined points.

Claims 2-4 are allowable as they depend from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
